

Big volume

Up to 120h

Modular BOX PALLET 3 to 6 sides

STANDARD PREMIUM

From 864L to 1033L

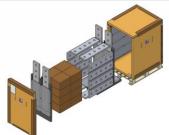

COOL +2°C/+8°C TEMPERATE +15°C/+25°C

Benefits

- High Performance shipping system with 3, 4, 5 or 6 cooling elements faces
- Qualified for AWB 2°C-8°C or 15°C -25°C
- Easy to prepare: sleeves of Phase Change Material (PCM) or water gel briquettes
- Lightweight, robust and easily assembled and dismantled (less than 6 minutes)
- Reducing your transport and storage costs thanks to its light weight and the ability to fold it flat
- Identical briquettes sleeves for all product sizes
- Optimal interior volume
- Easy handling and Easy to reuse
- Flatpackable
- Reusable in the Reuse and Reverse EMBALL'ISO network

Validated range

- Validated for exterior temperatures of between -20°C and 60°C
- Qualified by our design according to demanding profiles reproducing real transport conditions
- Extensive qualification data available upon request

Non contractual photo: the color of XPS may vary depending on the manufacturing site.

Services

- Return/Re-use option available for decontamination, refurbishment, quality control, and reuse
- Ready-to-Use option available for preconditioning and packaging placement
- Packaging study to optimize your fulfillment using 3D software
- Detailed packaging instructions
- On-site or online training
- Formulation of procedures/SOPs
- Process qualification

About EMBALL'ISO

A world leader in the design and manufacture of highperformance temperature-controlled packaging systems for the transport of pharmaceutical products, EMBALL'ISO is now an expert in turnkey Reverse Logistics and Rental solutions.

EMBALL'ISO's worldwide presence across 4 continents, with more than 10 production sites (Brazil, China, France, Germany, India, Japan, Mexico, Singapore, UK, US...) and collection points in more than 80 countries helps you reuse isothermal packaging saving you time and money while complying with your sustainability initiatives.
