

PALLET SHIPPER

PREMIUM STANDARD

Non contractual photo: the color of XPS may vary depending on the manufacturing site.

Quarter PMC (1 448 L)
Air Cargo US (1 679 L)
Half PMC (3 410L)

COOL +2°C/+8°C
TEMPERATE +2°C/+25°C
TEMPERATE +15°C/+25°C

Benefits

- High Performance shipping system
- Easy to prepare: sleeves of Phase Change Material (PCM) or water gel briquettes
- Lightweight, robust and easily assembled and dismantled (less than 6 minutes)
- Reducing your transport and storage costs thanks to its light weight and the ability to fold it flat
- Identical briquette casing for all 3 sizes of pallet shipper
- Reusable in the Reuse and Reverse EMBALL'ISO network
- Qualified for General cargo transport, AWB 2°C-8°C or 15°C -25°C

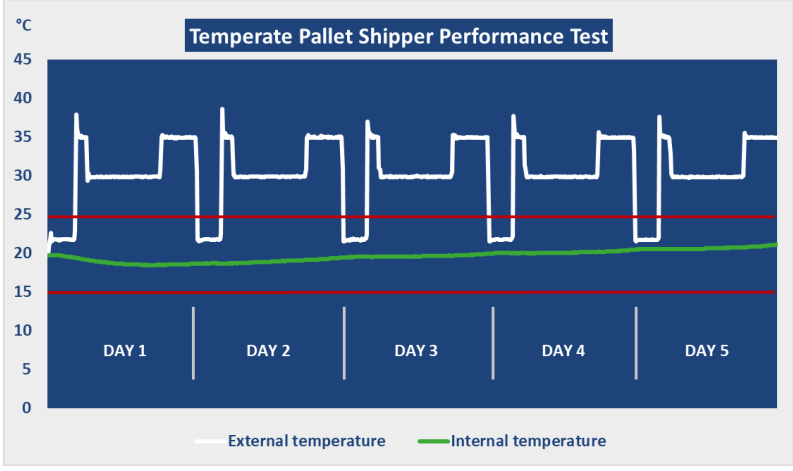

“The pallet shipper has been designed to help you reduce your transport costs and develop reverse logistics, while retaining outstanding thermal performance. “

Validated range

- Validated for exterior temperatures between -20°C and 60°C
- Qualified by our design office on the basis of exacting profiles that reproduce real-world transport conditions
- Extensive qualification data available upon request

Quarter PMC External dimensions when flat-packed: 1545 x 1380 x 890 mm

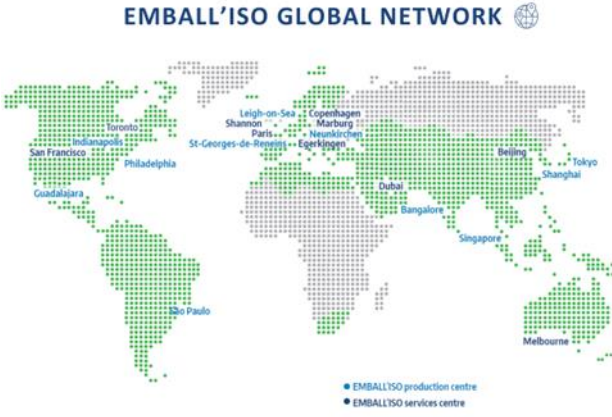

Services

- Ready to use delivery to point of loading
- Worldwide collection for free thanks to the Reuse and Reverse Global Network
- Worldwide availability
- Detailed Packaging Instructions
- Packaging study
- On-site or online training

About EMBALL'ISO

A world leader in the design and manufacture of high-performance temperature-controlled packaging systems for the transport of pharmaceutical products, EMBALL'ISO is now an expert in turnkey Reverse Logistics and Rental solutions.

EMBALL'ISO's worldwide presence across 4 continents, with more than 10 production sites (Brazil, China, France, Germany, India, Japan, Mexico, Singapore, UK, US...) and collection points in more than 80 countries helps you reuse isothermal packaging saving you time and money while complying with your sustainability initiatives.
